Effective from 1 September 2019

© Chartered Institute for Securities & Investment

Objective of the Examination

The objective of the examination is to provide candidates with a basic introduction to the financial services industry with a focus on investments.

The examination will test candidates' knowledge and understanding of the following elements:

- Introduction
- Economic Environment
- Financial Assets and Markets
- Equities
- Bonds
- Derivatives
- Investment Funds
- Financial Services Regulation
- Taxation, Investment Wrappers and Trusts
- Other Financial Products

Syllabus Structure

The unit is divided into **elements**. These are broken down into a series of **learning objectives**.

Each learning objective begins with one of the following prefixes: **know**, **understand**, **be able to calculate** or **be able to apply**. These words indicate the different levels of skill to be tested. Learning objectives prefixed:

- **know** require the candidate to recall information such as facts, rules and principles
- **understand** require the candidate to demonstrate comprehension of an issue, fact, rule or principle
- **be able to calculate** require the candidate to be able to use formulae to perform calculations
- **be able to apply** require the candidate to be able to apply their knowledge to a given set of circumstances in order to present a clear and detailed explanation of a situation, rule or principle

Candidate Update

Candidates are reminded to check the 'Candidate Update' area of the Institute's website (cisi.org/candidateupdate) on a regular basis for updates that could affect their examination as a result of industry change.

Examination Specification

Each examination paper is constructed from a specification that determines the weightings that will be given to each element. The specification is given below.

It is important to note that the numbers quoted may vary slightly from examination to examination as there is some flexibility to ensure that each examination has a consistent level of difficulty.
